

# Pro-Dye™

BRICKFORM Pro-Dye is a translucent dye, designed to penetrate and color any cementitious surface. Pro-Dye dries quickly, and can be easily sprayed on floors and vertical surfaces. In most cases, cleanup and sealing can be done in the same day. It is ideal for polished concrete and it can be used as a base-color for Blush-Tone Acid Stain to achieve dramatic results.

**Disclaimer** - Colors shown are an approximation of actual color. To confirm an exact color, have your contractor prepare a color sample for your approval before actual construction. BRICKFORM accepts no responsibility for color matching or misprints.

## BRICKFORM Pro-Dye Interior Quick-Dry Concrete Dye

BRICKFORM Pro-Dye penetrates the surface of concrete, creating a layer of translucent color that dries quickly and will not chip, crack, or peel. Pro-Dye is packaged in powdered form to be mixed in proportion with acetone. BRICKFORM Pro-Dye is excellent in vertical applications, stencils, and logos because it dries so quickly. Pro-Dye colors are vivid with unique multi-colored intensities, similar to the mottling effect of acid stain. Colors can be combined to create an unlimited number of color variations.

**PRODUCT DESCRIPTION** • BRICKFORM Pro-Dye penetrates the surface of newly cured or existing non-porous concrete, creating a layer of translucent color that dries quickly and will not chip, crack, or peel. The colors produced in each section of concrete will be unique with captivating, multi-colored intensities that become a permanent part of the concrete. Colors can be combined to create an unlimited number of color variations. When applied properly, Pro-Dye creates intense color that has a look similar to the mottling effect of acid stain. BRICKFORM Pro-Dye is packaged in powdered form to be mixed in proportion to acetone.

**USES** • BRICKFORM Pro-Dye is durable enough for commercial applications like restaurants, showrooms and retail spaces. It can be used to create vivid,

- Interior Use
- Large Selection Of Colors
- Easy To Spray Apply
- Dries Quickly
- Ideal For Polished Concrete
- Use Any Spray-On Sealer

DS	24 Standard Colors	Bottle
DS-8000	Mottling and Penetrating Agent	Bottle

new color for interior floors or concrete countertops. BRICKFORM Pro-Dye can also be used to correct areas where acid stains have little or no reaction on the concrete surface. Pro-Dye is excellent in vertical applications, stencils, and logos because it dries so quickly.

**LIMITATIONS** • BRICKFORM Pro-Dye may not cover up all discolorations that exist on the concrete surface and cannot be used to cover petroleum-type products such as oil, grease, or gasoline. Pro-Dye is NOT recommended for porous surfaces that may produce little or no mottling effect. BRICKFORM Pro-Dye is not a final coating so a sealer must be applied.

**COLORS** • BRICKFORM Pro-Dye is available in 24 standard colors.
